

The diagram illustrates the construction of a furnace. It shows a cross-section with a central furnace body (器具) and surrounding insulation layers. The insulation layers are labeled with dimensions: 10cm以上 (10cm or more) for the main insulation and 10cm (10cm) for the outer layer. The insulation is labeled 断熱材 (Insulation material). Below the diagram is a warning sign that reads '断熱材施工不可' (No insulation construction) with a crossed-out icon.
